INDEPENDENT AUDITORS' REPORT

Board of Trustees
Antrim Township
Shiawassee County, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Antrim Township as of and for the year then ended March 31, 2008, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Antrim Township as of March 31, 2008, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and the budgetary comparison schedules as identified in the table of contents are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The introductory section and the other supplemental information, as identified in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements taken as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

Dennis and Wenzlich, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS

ANTRIM TOWNSHIP MANAGEMENT'S DISCUSSION AND ANALYSIS

The following is a discussion and analysis of Antrim Township's (the Township's) financial performance and position, providing an overview of the activities for the year ended March 31, 2008. This analysis should be read in conjunction with the Independent Auditors' Report and with the Township's financial statements, which follow this section. The fiscal year ended March 31, 2008 represents the first year the Township has reported under the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments, as amended by GASB Statement No. 37 Basic Financial Statement and Management's Discussion and Analysis for State and Local Governments – Omnibus and Statement No. 38 Certain Financial Statement Note Disclosures. Therefore, this discussion and analysis does not provide comparisons with previous years.

FINANCIAL HIGHLIGHTS

The assets of the Township exceeded its liabilities at the close of the most recent fiscal year by approximately \$507,000 (net assets). Of this amount, approximately \$149,000 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.

The government's total net assets increased by approximately \$42,000 for the fiscal year.

As of the close of the current fiscal year, the Township's governmental funds reported combined ending fund balances of approximately \$507,000.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Township's basic financial statements. The Township's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary and additional information in addition to the basic financial statements themselves.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the Township's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the Township's assets and liabilities with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., delinquent personal property taxes).

ANTRIM TOWNSHIP
MANAGEMENT'S DISCUSSION AND ANALYSIS
(CONTINUED)

Both of the government-wide financial statements distinguish functions of the Township that are principally supported by taxes, special assessments and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Township include general government, public safety, public works, health and welfare, community and economic development, culture and recreational and other functions. The government-wide financial statements can be found on pages 8 and 9 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Township, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Township can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for government activities in the government-wide financial statement. By doing so, readers may better understand the long-term impact of the government's near term financing decision. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Township maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Fire Fund, and Ambulance Fund which are considered to be a major funds. Data from the other governmental funds if any, are combined into a single, aggregated presentation. Individual fund data for each of the nonmajor governmental funds if any, is elsewhere in this report.

The Township adopts an annual appropriated budget for its general fund and special revenue funds. Budgetary comparison statements have been provided for the general fund in the required supplementary information and for the special revenue funds in the additional information to demonstrate compliance with budgets.

ANTRIM TOWNSHIP
MANAGEMENT'S DISCUSSION AND ANALYSIS
(CONTINUED)

Fiduciary Funds. Fiduciary Funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Township's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on page 14-15 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the Township's general fund and special revenue budget.

Government-Wide Financial Analysis

As noted earlier, net assets may serve, over time, as a useful indicator of government's financial position. In the case of the Township, assets exceeded liabilities by \$507,000 at the close of the most recent fiscal year.

By far the largest portion of the Township's net assets (71 percent) reflects its investment in capital assets (e.g., land, building, machinery, infrastructure, and equipment); less any related debt used to acquire those assets that is still outstanding. The Township uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Township's investment in its capital assets is reported net of related debt, it should be noted that the Township does not have any outstanding debt.

Restricted assets represents cash accounts of the Township's Fire and Ambulance Special Revenue accounts.

Township as a Whole

The following table shows, in a condensed format, the net assets of the Township as of March 31, 2008:

Current Assets	\$ 149,096
Capital Assets	<u>358,769</u>
Total Assets	\$ <u>507,865</u>
Current Liabilities	\$ <u>34</u>
Total Liabilities	\$ <u>34</u>
Net Assets	\$ <u>507,831</u>

ANTRIM TOWNSHIP
MANAGEMENT'S DISCUSSION AND ANALYSIS
(CONTINUED)

The Township's Funds

Governmental Funds. The focus of the Township's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Township's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The fund financial statements provide detailed information about all the general government funds. Antrim Township Board Trustees have the ability to create funds to help manage money for specific purposes as well as to show accountability for certain activities, such as property tax mileages' and special assessments.

The General Fund pays for the majority of the Township's governmental services. The General Fund paid \$75,355 for road maintenance during the year. The Fire Fund pays for the purchase of fire protection services. The Ambulance Fund pays for Ambulance services.

General Fund Budgetary Highlights

Over the course of the fiscal year, the Township Board made necessary budget adjustments to fund unanticipated expenditures during the year and to reallocate expenses across different governmental activities.

Capital Assets

At the end of the fiscal year, the Township had approximately \$463,563 (valued at historical cost) in assets which includes building, land, land improvements, furniture, equipment, office equipment and infrastructure. Accumulated depreciation recorded for the general township assets was \$108,739 at March 31, 2008.

Current Economic Factors

Antrim Township's goal is to continually look for the most efficient and effective methods to maintain and enhance the services that are provided to the public. The Township has a conservative and financially prudent budget for the fiscal year 2008 that also promotes and funds numerous project objectives.

The Township has deliberately made conservative estimates concerning state revenue sharing for fiscal year 2008 due to the budget constraints at the State level. It has also estimated investment earnings conservatively anticipating lower interest rates.

Request for Information

This financial report is designed to provide a general overview of the Township's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Township Supervisor at 12014 Bancroft Road, Morrice, Michigan 48857.

ANTRIM TOWNSHIP
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED MARCH 31, 2008

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Antrim Township conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units.

The more significant of the government's accounting policies are described below:

A – REPORTING ENTITY

Antrim Township is governed by an elected five member board. The accompanying financial statements present the Township's primary government and component units over which the Township exercises significant influence. Significant influence was determined on the basis of budget adoption, taxing authority, outstanding debt secured by revenues, general obligation of the Township to finance any deficits that may occur, or receipt of significant subsidies from the Township. Component Units that do not meet the criteria for blending are reported discretely.

There are no component units that are reported in the Township's financial statements.

B – GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Changes in Net Assets) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent, on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, or privilege provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly excluded from program revenues are reported as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the governmental-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

ANTRIM TOWNSHIP
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED MARCH 31, 2008

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C – MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing or related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, restricted resources are applied first.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

Those revenues susceptible to accrual are property taxes, special assessments, licenses, interest revenue, and charges for services. Sales taxes collected and held by the state at year end on behalf of the government also are recognized as revenue. Fines, permits, and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The Township reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the Township. It is used to account for all financial resources except those required to be accounted for in another fund.

Fire Fund – Used to account for monies disbursed for Township Fire Protection.

Ambulance Fund – Used to account for special revenue monies to provide ambulance service for Township residents.

ANTRIM TOWNSHIP
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED MARCH 31, 2008

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C – MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (CONTINUED)

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. When these assets are held under the terms of a formal trust agreement, either a pension trust fund, a nonexpendable trust fund or an "expendable" trust fund is used. The terms "nonexpendable" and "expendable" refer to whether or not the government is under an obligation to maintain the trust principal. Agency funds generally are used to account for assets that the government holds on behalf of others as their agent.

D – ASSETS, LIABILITIES AND NET ASSETS OR EQUITY

Cash and Investments – The Township has defined cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with a maturity of 3 months or less when acquired.

Receivables and Payables – In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances."

Prepaid Items – Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide financial statements.

Capital Assets – Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, bridges, sidewalks and similar items) are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The Township began recording governmental infrastructure constructed on or after July 1, 2003 as followed by GASB 34.

ANTRIM TOWNSHIP
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED MARCH 31, 2008

D – ASSETS, LIABILITIES AND NET ASSETS OR EQUITY (CONTINUED)

Property, plant and equipment is depreciated using the straight-line method over the following useful lives.

Land Improvements	10 to 20 years
Building and Building Improvements	25 to 40 years
Utility Systems	25 to 40 years
Roads & Culverts	25 years
Other Infrastructure	20 to 40 years
Vehicles	5 to 10 years
Machinery and Equipment	5 to 10 years

Long-Term Obligations – In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Antrim Township has no long-term obligations.

Fund Equity – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

E – USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

F – BUDGETS AND BUDGETARY ACCOUNTING

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrances accounting – under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation – is not utilized in the governmental funds. Encumbrances outstanding at year end are not reported as reservations of fund balances and also not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

ANTRIM TOWNSHIP
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED MARCH 31, 2008

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F – BUDGETS AND BUDGETARY ACCOUNTING (CONTINUED)

The Township follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to the beginning of the fiscal year, the clerk submits to the Township Board a proposed operating budget for the fiscal year commencing the following April 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted in the Township to obtain taxpayer comments.
3. Prior to April 1, the budget is legally enacted through board approval.
4. Budgets for the General and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP).
5. The budgets were amended during the year ended March 31, 2008 as necessary.

G – SHORT-TERM INTERFUND RECEIVABLES/PAYABLES

During the course of operations, transactions occur between individual funds for services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

H – COMPENSATED ABSENCES AND POST EMPLOYMENT BENEFITS

The Township does not provide for compensated absences or post employment sick pay benefits.

Under the Consolidated Omnibus Budgeting Reconciliation Act (COBRA) certain requirements are outlined for health insurance coverage of former employees and eligible dependents. The Township does not have health insurance coverage for its employees, therefore, there are no post-employment health care benefits.

The Township does not have a pension plan.

ANTRIM TOWNSHIP
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED MARCH 31, 2008

NOTE 2 – LEGAL COMPLIANCE BUDGETS

Before the beginning of each fiscal year, the proposed budget is presented to the board for review. The government's board holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated as available or the revenue estimates must be changed by an affirmative vote of a majority of the board.

Expenditures may not legally exceed budgeted appropriation. The final amended budget is included in the financial statements.

NOTE 3 – DEPOSITS AND INVESTMENTS

Michigan Compiled Laws, Section 129.91, authorizes the local governmental unit to make deposits and invest in the account of federally insured banks, credit unions, and savings and loan associations which have an office in Michigan. The local unit is allowed to invest in bonds, securities and other direct obligations of the United States or any agency or instrumentality of the United States; United States government or federal agency obligations; repurchase agreements; bankers' acceptance of United States banks; commercial paper rated within the two highest classifications which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.

The local Government Unit Board has designed two banks for the deposit of local unit funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997 has authorized investment in bonds and securities of the United States government and bank accounts and CD's, but not the remainder of State statutory authority as listed above.

The Township's deposits consist of interest bearing checking and savings accounts. At March 31, 2008, the carrying amount of the Township's deposits was \$131,831. Of the bank balance, \$100,000 was covered by Federal Depository Insurance and \$31,831 was uninsured. Michigan law does not require collateralization of government deposits.

The Township's investment at March 31, 2008, consisted of cash at one financial institution.

<u>Institution A</u>	<u>Amount</u>	<u>FDIC Insured</u>	<u>Uninsured</u>
Checking – Demand	<u>\$131,831</u>	<u>\$100,000</u>	<u>\$31,831</u>

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental Activities:

General Government	\$12,813
Public Works	<u>9,431</u>

TOTAL DEPRECIATION – GOVERNMENTAL ACTIVITIES \$22,244

ANTRIM TOWNSHIP
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED MARCH 31, 2008

NOTE 6 – EXCESS OF EXPENDITURES OVER APPROPRIATIONS

Michigan Public Act 621 of 1978, Section 18 and 19, as amended, provides that a local governmental unit shall not incur expenditures in excess of the amounts appropriated.

In the body of the general purpose financial statements, the Township's budgeted expenditures in the General and Special Revenue Funds have been shown at the functional classification level. The approved budgets of the Township have been adopted at the activity level for the General Fund and the total expenditure level for the Special Revenue Fund.

During the period ended March 31, 2008, the Township incurred expenditures in excess of the amounts appropriated as follows:

	<u>Appropriated</u>	<u>Amounts Expended</u>	<u>Variance</u>
General Fund:			
Clerk	\$14,500	\$14,920	\$ (420)
Fire Fund	66,178	66,228	(50)
Ambulance Fund	40,545	40,595	(50)

NOTE 7 – RISK MANAGEMENT

The Township is exposed to various risks of loss related property loss, torts, errors, omissions and employee injuries (workers' compensation). The Township has purchased commercial insurance for property loss, torts, and workers' compensation claims. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

Antrim Township
Shiawassee County, Michigan

In compliance with the provisions of Section 11, Paragraph 2, of Act 2, Public Acts of 1968, we discovered the following areas which required specific recommendation, as a result of the audit our firm performed on the financial statements of Antrim Township for the year ended March 31, 2008.

Budget

The State Revenue Sharing Distribution Law, P.A. 176 of 1980, includes a compliance requirement in budgeting. It is important under this act that expenditures do not exceed the budget. Expenditures include accounts payable at March 31. Budgeted expenditures cannot exceed budgeted revenues plus the beginning fund balance. During our audit we noticed certain expenditures exceeding budgeting amounts. Care should be taken that expenditures do not exceed the budget. Amendments, if any, must occur before March 31.

Bank Reconciliations

Bank reconciliations should be performed monthly and attached to the bank statements or otherwise kept in files.

General Ledger

The Township should be using the Uniform Chart of Accounts. Originally, the Chart of Accounts used was correct, however, new accounts have been added. Some of the new accounts are out of order (liabilities before assets) and some do not have account numbers associated with them.

We recommend review of the fund chart of accounts, and corrections made to comply with the Uniform Chart of Accounts. A copy of the Uniform Chart of Accounts can be provided.

We wish to thank the board for the excellent cooperation we received in performing the Township audit. If we can be of any further assistance to the Township please contact us.

Sincerely,

Demis and Wenzlick, P.C.

Members of the Township Board
Antrim Township
Shiawassee County, Michigan

In planning and performing our audit of the financial statements of the governmental funds of Antrim Township for the year ended March 31, 2008, in accordance with auditing standards generally accepted in the United States of America, we considered Antrim Township's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Antrim Township's internal control. Accordingly, we do not express an opinion on the effectiveness of Antrim Township's internal control.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or a combination of deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above.

This communication is intended solely for the information and use of Management, members of the Board of Antrim Township, and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.

Demis and Wenzlick, P.C.
